

Worldwide Narcotics Ring Is Said Smashed

City Roundup Of Accused Has Started

Judge Opens Sealed Indictment of 62; 'Director' at Large

NEW YORK (AP)—A giant international narcotics smuggling and distribution ring was reported smashed today with the opening in federal court of a sealed indictment naming 46 defendants and 16 coconspirators.

A roundup of scores of persons in the New York City area already had been reported.

Head of the gigantic operation was Harry Stromberg, 54, who was the ring's "over-all director" for more than 25 years, according to a government spokesman.

The dope syndicate imported heroin, cocaine and opium from France and other countries, and on at least one occasion it smuggled in about 50 pounds of pure heroin valued on the illicit market at \$3,500,000, according to U. S. Atty. Paul W. Williams.

The indictment was returned Aug. 28, sealed and opened today in the chambers of U. S. Dist. Judge Edward Weinfeld.

The ring used many "underhanded" methods in its operations and an untold number of customs inspectors were "corrupted" by it, in agreeing to facilitate the smuggling of narcotics through New York, Williams declared.

Those inspectors have since been discharged, he added. They were not identified.

The huge ring diluted, distributed and sold the narcotics at fantastic prices, after the dope's arrival here, Williams said.

He added that the narcotics were distributed in New York, Washington, D. C., Illinois, Ohio, Michigan, Pennsylvania, California, Massachusetts and other places.

So far, nine of those indicted have been taken into custody, Williams said. Stromberg, the alleged kingpin, whose alias was given as Nig Rosen, has not yet been apprehended.

Williams said seven arrested in New York were Herman Samnick, Benjamin Danis, Tommy Akel, Anthony Mirra, Nicholas Lessa, Octavio Fuggetta and George Bakov.

The attorney said Thomas Greenberg was arrested in Baltimore and Cornelius Parker in Washington, D. C.

Final Tabulation Shows Holiday Traffic Toll Reaches 445

By THE ASSOCIATED PRESS

Final tabulation of accident reports showed today that at least 445 persons were killed in traffic accidents during the long Labor Day holiday weekend.

This toll exceeded by 25 the pre-holiday estimate of 420 made by the National Safety Council.

Although the toll surpassed last year's Labor Day toll of 435 as well, it was not a record for the holiday period. The largest traffic death toll was 461 during the 78-hour Labor Day weekend in 1951.

In the holiday just concluded, an Associated Press survey covering the period from 6 p. m. Friday to midnight Monday, Sept. 2, (local time showed an overall death toll of 636 from traffic, drowning and miscellaneous accidents. In addition to the 445 traffic deaths, there were 95 drownings and 96 deaths in a variety of accidents.

Runaway Boy Returns Home to Learn Death Not Blamed on Him

SAN FERNANDO, Calif. (AP)—Nearly five months ago Sheldon Elmore, 12, ran away from home when he learned an elderly woman died of a heart attack a few days after he bumped into her in a game of tag.

Sheldon came home to his joyous parents last night and told all about his adventures.

He said he collected \$110 from his newspaper route before he fled, fearing arrest and disgrace. He worked in several carnivals and stayed with friends. He kept moving.

A touring couple turned him over to authorities in Texas because they didn't believe his story because he was 16. A television show—Queen for a Day—over which Mrs. Vaughn Elmore had pleaded for her son's return, flew the wanderer home from Dallas.

Russell Maag

Astronomers Elect Maag As President

Sedalian Will Head National Amateur Astronomy League

Russell Maag, 904 South Ohio, was elected president of the Astronomical League, the national federation of amateur astronomical societies, at its 11th annual convention held at the Kansas City University over the Labor Day weekend.

Maag has been vice-president of the organization the past two years and served two years prior to that as secretary and two years as treasurer.

He was instrumental in organizing the Mid-States Region of the Astronomical League, encompassing the states of Missouri, Kansas, Oklahoma and Arkansas. Maag served as the first regional chairman and was regional representative on the national council for four years.

Maag was also instrumental in founding the Central Missouri Amateur Astronomers, whose headquarters is the Morrison Observatory at Central College in Fayette. He served as president of this group for six years.

He is a member of the American Association of Variable Star Observers, Association of Lunar and Planetary Observers, American Association for the Advancement of Science, International Lunar Society, Royal Astronomical Society of Canada and currently has been proposed for membership in the American Astronomical Society.

Other officers elected at the meeting were Mrs. Wilma Cherup, Pittsburgh, Pa., executive secretary; Chandler Holton, Atlanta, vice-president; Gene Tandy, Independence, secretary, and Norman Dalke, Portland, Oregon, treasurer.

Final Date For Angle Parking

Ordinance on Tax Levy for City Read; Rate Not Changed

By D. KELLY SCRUTON

Angle parking will cease in Sedalia on July 1, 1958, in accordance with two ordinances passed by the City Council at its meeting Tuesday night. One of the two repeals portions of the traffic ordinance and amends it to prohibit angle parking. The second ordinance prohibits angle parking anywhere in the city to give free flow to traffic. An ordinance setting the city tax levy at \$1.50 per \$100 dollar valuation was read for the first time.

The city tax levy of \$1.50 was first set in 1948 and has not since been raised.

Some discussion arose during the Council proceedings on final passage of ordinances, when Councilman Woodrow Garrison of the Second Ward questioned the advisability of using Type A curb and guttering on Marvin between Broadway and Tenth, when Type B has been used almost extensively in the residential areas.

Engineer E. V. Bishop explained it carried the water shed off better. Garrison inferred it cost more for Type A to which Bishop replied about ten cents a foot. Then Garrison pointed out this type he figured was about 30 cents more per foot.

The ordinance was given final passage, letting the contract for curb and guttering and paving, with a 5 to 2 vote, Garrison and Councilman R. N. Snavely voted no, Councilman Earl Paxton passed, with Councilman Harry Moore, Pat Clark, Dr. Ira White, C. L. Kelley and Aubrey Case voting yes.

Councilman Garrison stated he wanted to include Gould Street in the through streets, as recommended by Hare and Hare, city planners. He explained the ordinance passed did not include this street at the time, Garrison said Gould is an extension of East Third Street from Engineer to New York and known as Gould from New York to Marshall and runs along the Missouri Pacific right-of-way.

Councilman Kelley asked that it be held over to find out how much right-of-way would be necessary and the cost. Garrison stated he understood the ground necessary was now up for taxes and could be bought cheaply. His request was given approval by the council, with Kelley refraining from voting on the voice count.

Under the report of the street and alley department, Councilman Garrison read a list of streets for paving with hot mixed asphalt pavement with curb and guttering under the 1200 foot law, to be taken up on the September quota. The list by wards is as follows:

Anthrax Vaccination Goes On In Oklahoma

OKLAHOMA CITY (AP)—Vaccination of livestock in northeastern Oklahoma against anthrax is continuing.

State veterinarian Dr. M. N. Reimenschneider, said several thousand animals a day are being vaccinated against the disease which has killed more than 700 animals this summer in five Oklahoma counties.

He said, however, that the disease appeared under control. He estimated that 200,000 animals had been vaccinated.

Missouri officials announced yesterday that the state is relaxing embargoes against livestock shipments from Mayes, Craig and Ottawa counties in northeastern Oklahoma.

Voters OK Gas, Light Franchise

Approval Assures Program of New Street Lighting

The voters of Sedalia Tuesday approved the recent action of the City Council in authorizing the Missouri Public Service Co. franchises for its electricity and gas service throughout the city.

The vote for the electricity franchise was 1,897 for and 101 against. The vote for the gas franchise was 1,900 for and 100 against.

Approval of the franchises was overwhelming in every precinct, but in only one precinct was there no dissenting vote—and then only on the electricity franchise. This was in the second precinct of the fourth ward. In that precinct four votes were cast against the gas franchise. In three cases there were as many as 11 dissenting votes, which was the greatest number voting "no."

The franchise approval signals the start of a large program of lighting changes throughout the city, including fluorescent lamps for the downtown business district, mercury vapor lamps for Broadway and new traffic signal lights to meet the increasing demands brought about by heavier traffic flow in Sedalia's business areas.

Car Accident On Hiway 135 Proves Fatal

George Leon Apple, 56, Kansas City, died at Bothwell Hospital at 3:55 p.m. Tuesday of injuries received in a one-car accident on State Highway 135 about a mile from the junction of State Highway 5. The accident occurred during the early morning rainstorm Tuesday.

Mrs. Neva Apple, 55, his wife, sustained minor bruises and scrapes about her face, arms, hands and feet. She also suffered shock.

The car left the blacktop road on a curve and went down an embankment to crash into a tree stump. They were found by fishermen and taken to Versailles and later brought to Sedalia.

Survivors are: his wife, Mrs. Neva Apple, 444 1/2 Troad, Kansas City; one daughter, Mrs. R. C. Rimel, Blue Haven Beach, near Camden, Mo.; a son, Darrell Apple, Salina, Kan., and six grandsons.

Mr. Apple was born at Shelburn, Ind., Jan. 17, 1901, and was married about 35 years ago to Mrs. Apple in Kansas City. They have spent the past 25 years as residents of Kansas City.

The body was taken to the Gillespie Funeral Home and later taken to the Newcomer Funeral Home in Kansas City.

Funeral services will be Friday.

Kennedy Takes Hoffa Inquiry to Home City Of Teamster Leader

DETROIT (AP)—James R. Hoffa's chief inquisitor in the U. S. Senate Rackets Committee investigation—Robert F. Kennedy—was in Detroit today taking personal charge of a probe in Hoffa's home city.

He was noncommittal except to indicate Hoffa's financial affairs would be a part of his work.

On arrival yesterday, he talked to several men from Hoffa's Teamsters Union, including Joseph Prebenda, secretary-treasurer of Teamsters Local 372. Prebenda is one of the top men in the Teamster ranks here.

Hoffa, union vice president, is to be recalled to Washington for further testimony before the committee.

Kennedy said he would be in Detroit the rest of this week and probably a part of next week.

The Senate committee has said Hoffa has borrowed \$89,000 from subordinates in the Teamsters Union and from representatives of managements with which his union had contracts.

Pulitzer's Last Son Dies In France

Death Means Trust Controlling Stock Will Be Dissolved

PARIS (AP)—Herbert Pulitzer, 61, last surviving son of the publisher, the late Joseph Pulitzer, died today in the American Hospital.

He had been ill with a heart condition for some time and uremic poisoning developed recently.

The other sons of the first Joseph Pulitzer, founder of the St. Louis Post-Dispatch and the old New York World, were Ralph, who died in 1939, and Joseph, editor of the Post-Dispatch, who died in 1955.

With his death the Newspaper Trust which controlled most of the stock in the Pulitzer Publishing Co. will be dissolved in accordance with the will of the first Joseph Pulitzer. This trust in effect controlled the operation of the Post-Dispatch and stations KSD and KSD-TV in St. Louis. It exercised similar control over the Press Publishing Co., which administered proceeds from the sale of the New York World.

The Voting Trust, established in 1950, will be in a position to take over functions of the expired Newspaper Trust. Trustees of the Voting Trust are the third Joseph Pulitzer, editor of the Post-Dispatch; Raymond L. Crowley, managing editor of the newspaper; Dell Stafford, treasurer of the Post-Dispatch; Charles J. Hentschell, vice president of the Pulitzer Publishing Co. and business manager of the Post-Dispatch; and John G. Jackson, New York attorney representing the Pulitzer family.

Nine Negro Students Are Turned Back

Governor Insists He Is Not Defying US Court Judge's Order

LITTLE ROCK, Ark. (AP)—National Guardsmen called out by Gov. Orval Faubus today forcibly prevented integration of Central High School and Faubus insisted at a news conference later that he is not defying a federal court order.

The soldiers turned back nine Negro students who tried to enroll at the 2,000-pupil all-white school.

The troops controlled a disorderly crowd which jeered the Negroes, who were led by a well-dressed unidentified white man.

Faubus maintained that his only purpose in calling out 250 white guardsmen Monday night was to "maintain peace and order."

Referring to a decision by Federal Judge Ronald Davies last night ordering the Little Rock school board to "proceed forthwith with integration" despite the presence of troops around the school, Faubus said today:

"The governor of the state is the preserver of peace, not a federal judge."

Asked why local and state police couldn't deal with violence, if it occurred, Faubus said that "it is better to preserve peace than to quell disorders."

An aide said Faubus had received about 500 telegrams since his mobilization of troops. More than 98 per cent favored the move, the governor's aide said.

Faubus said at his news conference that Negroes were stopped this morning under his orders.

The off-again, on-again integration was an uncertain issue as classes began today.

The state branch of the National Assn. for the Advancement of Colored People, after learning that the school board had given the green light to Negro students again last night, announced some would try to enroll.

A crowd of some 300 whites milled about in front of the school shouting such phrases as "Nigger go back where you belong" but the whites made no attempt to harm the Negroes.

Maj. Gen. Sherman T. Clinger, Arkansas adjutant general, said the guardsmen, all whites, were acting on the governor's orders. "Gov. Faubus has declared Central High off limits to Negroes," Clinger told newsmen.

An unaccompanied 15-year-old Negro girl made the first attempt to cross a line of about 200 soldiers standing shoulder to shoulder. As she repeatedly attempted to pass through the formation, an armed guardsman stepped forward and silently turned her back.

Last night, a federal judge again ordered the city school board to proceed with its gradual integration plan. It was the second time since Friday that Federal Judge Ronald N. Davies had ruled for integration.

Between the issuance of the two decrees, Faubus had called out National Guardsmen to cordon off the huge Central High School to "maintain order and protect the lives and property" of citizens.

Most of Missouri Has Chilly Morning

KANSAS CITY (AP)—It dawned mostly clear and chilly in Missouri today, but temperatures were expected to warm up into the 90s during the day.

There was considerable cloudiness in the extreme north, and overnight readings ranged from 55 at Butler and Kirksville to 66 at Malden.

Yesterday's highs reached 95 at Joplin, ranging down to 84 at Kirksville. Today's maximums are forecast in the 90s southwest to the 80s elsewhere.

Woman Files Damage Suit Against Tavern

Joan Cramer filed suit against Earl "Potts" Evans as operator of the Green Pastures, 214 East Third, for \$25,000 damages. In her petition she alleges that intoxicating beverages were sold to Tex Gaine, a minor, and as a result Gaine became intoxicated and fatally stabbed her husband, Virgil Lee Cramer, on Oct. 26, 1956. George Anson is attorney for the plaintiff. Gaine was later sentenced to a year in jail for manslaughter.

Hollywood Writer Quits To Be Historical Novelist

By HAL BOYLE

NEW YORK (AP)—Most writers dream of turning out a novel they can sell to Hollywood and become rich.

Dale Van Every, a top authority on America's early frontier, did it the other way. He quit a \$75,000-a-year job in Hollywood in 1943 to become a historical novelist.

"I was making \$1,500 a week—which made me a working picture writer, not a celebrity," he remarked drily. "My only regret now is that I didn't quit sooner."

Van Every, now 61, has written six novels—the most recent is "The Voyagers"—since he turned his back on Hollywood, where he worked on some 100 pictures after an earlier career as a newsman here and in Washington, D. C. The

novels have sold more than two million copies.

One of the ironies of his success as a novelist is that some critics, aware of his Hollywood background, feel his books have been written with an eye for the film market. Van Every says that actually the exact opposite is true.

"None of my novels have been sold to the movies," he pointed out. "I use fiction only as a kind of sugar-coating for the facts. It is the facts that interest me."

"My pleasure in writing is the delight in recreating a lost world—the period between 1700 and 1811, when America really became a nation."

"Everyone knows about the frontier of the later West—the covered wagon, the stage coach, the cowboy and the horse Indian."

"But even the college professors don't know too much about the earlier West, the frontier east of the Mississippi—the West of the stockade, the flatboat, the long rifle, the time when the Indians outnumbered and were stronger than the white settlers—and won every battle except the last one."

Van Every, whose grandfather's grandfather was a Tory fighter in the Revolution, has been interested in this little-known period since boyhood. Thanks to his profitable years in the Hollywood vineyard, he was able to assemble one of the nation's finest private historical libraries.

A methodical craftsman, he writes five drafts of each novel, sometimes spends three or four days checking to be sure he has a detail of frontier life exactly right.

"Newspaper training is the best for anyone learning to write," he said. "It teaches you a respect for facts, and how to find and use them."

As a result of his interminable research Van Every lards his nov-

Teachers Hear Superintendent At First Meet

The teachers of the Sedalia schools met on Monday to discuss organization for the coming school year and hear Dr. Hunt discuss policy. School got underway with the pupils on Tuesday. Classes met in the morning for short periods to inform the students of the text books and course materials, make assignments and check the enrollment.

With a total enrollment of 1,203 at Smith-Cotton, the freshmen are the largest class, having 311 members. The eighth graders have 239, the sophomores 270, juniors 211 and the seniors are the smallest with 174. There is an almost even distribution between boys and girls, with there being 606 girls and 599 boys.

Classes met for the full 50 minutes Wednesday, when classwork got under way.

Tuesday night the seniors put on the annual nickel "Wing Ding," a get-acquainted party for the whole school, and to raise money for the activities of the senior class. There were all sorts of games of chance and skill, and the school year got off to a good start at this celebration.

els with such interesting facts as why Indians daubed a captive's head with clay before burning him at the stake. It was to preserve the scalp! Indians rarely violated a white female captive in order to preserve their own purity.

"They also enjoyed moose snout boiled dog's head, and turkey eggs eaten the day before they were due to hatch," added Van Every, who is a steak man himself.

The novelist recently sold his home in Santa Barbara, Calif., and plans to spend a year or two wandering the world with his wife. "I'm too young to settle down," he said.

Decorator, Bulldozer Driver Decide to Get Rid of Five Garages

MEDIA, Pa. (AP)—Five garages are missing in nearby Concordville today and state police blame it on an indignant interior decorator.

Fined for Slow Speed

NEW HARTFORD, N.Y. (AP)—Arthur Markle, 66, said the reason he was driving between 5 and 10 miles an hour on Route 5, a main state highway, was because he had heard that speed causes most accidents.

A state trooper said a long line of Labor Day traffic was following him.

The peace justice said slow driving could cause accidents too and fined Markle, of nearby Frankfort, \$10.

decorator, a happy-go-lucky bulldozer driver and a few beers.

The garages used to be behind the home of Donald Baeshore, 46, the decorator. He thought they were an eyesore.

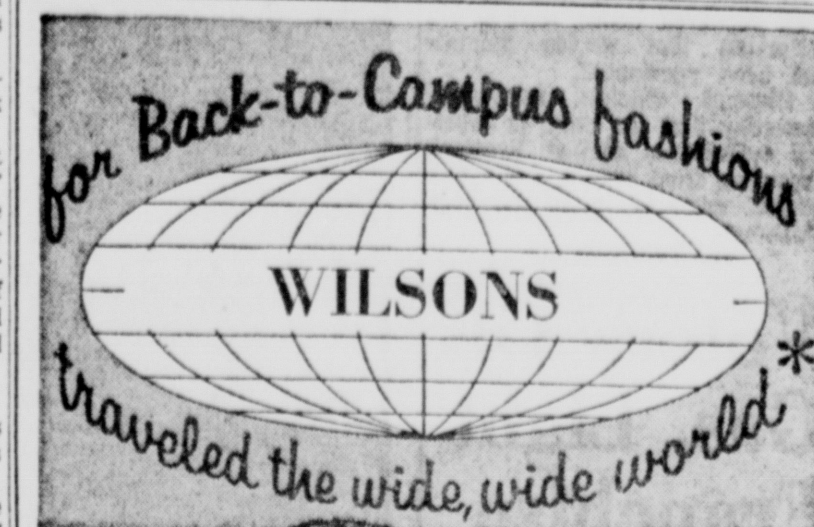

State Police Pvt. Earl Glasser said Baeshore was talking about them over some beers in a bar two weeks ago with a bulldozer operator, Charles Bennett.

Glasser said Bennett offered to get rid of them.

The garages were pushed into a nearby ravine and all but buried beneath five tons of dirt. The biggest clue to their disappearance, Glasser said, was the bulldozer tracks.

People who can easily pay any price say:

**"Pay more... what for?
Ford's the buy!"**

Why? Because this 1957 Ford gives you the advanced features, the solid ride, the effortless handling that you once expected to find only in expensive cars. And when it comes to looks, where in all the world can you find fresher styling than in the sculptured-in-steel lines of this new Ford?

Ford's superiority is evident in many places. In the vital rear axle, the pinion gear that turns the rear wheels is straddle-mounted . . . supported between two anti-friction bearings instead of being "overhung" from a single bearing. This makes operation quieter, smoother and longer-lasting. It's a feature that Ford shares with only one other car maker—Rolls Royce.

Or consider Ford's famous V-8 engine. No other manufacturer in the industry today electronically balances every V-8 engine, while operating under its own power, the way that Ford does. This means you get a smoother-running engine—the finest V-8 in Ford's 25 years of V-8 leadership.

These are only a few of the important hidden values that are yours in the new kind of Ford. But they indicate why so many people who can pay almost any price for a car—people who have driven expensive cars for years—are buying Ford today. Action Test this great performing car at your Ford Dealer's just once and you too, will ask, "Pay more . . . what for?"

YOU CAN SPEND HUNDREDS MORE . . . BUT YOU CAN'T BUY BETTER THAN THE NEW KIND OF FORD

Vera Wehmeir Exchanges Vows With J. Rice

Miss Vera Louise Wehmeir, daughter of Mr. and Mrs. Fred Wehmeir, Tipton, became the bride of James G. Rice, son of Mr. and Mrs. Paul Rice, Holts Summit, Sunday afternoon, August 25, at the First Baptist Church in Jefferson City. The Rev. Thomas Nelson read the service before a altar set with bouquets of white gladioli and lighted tapers.

Miss Sue Henley, Jefferson City, sang "Because" and Glenn Kappelmann of Lohman sang "The Lord's Prayer" accompanied by James Wingate, Jefferson City. The traditional wedding marches were used.

The bride, given in marriage by her brother, Wesley Wehmeir, wore a gown of nylon lace over moire taffeta. The waist length gown was worn over a hoop skirt and the princess bodice had a V neck with short sleeves. Her veil was held by a halo of tulle and seed pearl medallions. She carried a bouquet of white carnations and pink roses on a white Bible.

Miss Patricia Ann Elliott was the bride's only attendant. She wore a waist length gown of light blue with matching veil and mitts. The skirt fell over a hoop skirt. She carried a bouquet of pale pink carnations.

Ronnie Rice, Holts Summit, served as his brother's best man. Billie Wehmeir, Raytown, and Ronnie Thixton, Jefferson City, ushered and lighted the candles.

The bride's mother chose a navy faille dress trimmed in white and navy and white accessories. The groom's mother wore a gray dress complemented with white accessories. Both had white carnation corsages.

Following the ceremony a reception was held in the fellowship hall for 175 guests.

Pink roses and fern encircled the two-tier wedding cake which was topped with a miniature wedding bell and flowers.

The bride's going away costume was a navy blue dress with white accessories and her corsage was pink and white carnations.

The bride is employed with the state division of insurance. The groom attended Lincoln University and is pastor of Unity Baptist near Fulton.

They are residing in Jefferson City.

Back to School Party for Xi Omega

Xi Omega Chapter of Beta Sigma Phi in keeping with the back-to-school season entertained guests and members with a school party at High Point School Thursday night, Aug. 29.

Mrs. Ruth Moore, teacher of Xi Omega School, called her errand and erratic pupils to attention with an old fashioned school bell.

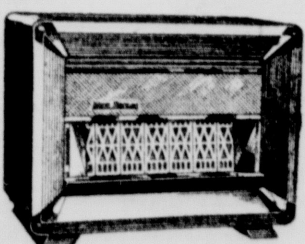

As they found their desks, all the girls sang: "Good Morning, Dear Teacher." A novel spelling bee was held in which each word had to be spelled backwards. A ciphering match also figured in the fun.

At recess time sack lunches were opened and much switching and snatching ensued.

Guests were Mrs. Mildred Edwards, Mrs. Bess Landers, Mrs. Connie Brummett, Mrs. Dorothy Luchs, Mrs. Ronnie Trotter, Mrs. Pat Bingham and Mrs. Margaret Lindstrom.

Start Competition For Miss America At Atlantic City

ATLANTIC CITY, N.J. (AP)—The 51 contestants vying for the Miss America 1958 title take part today, tomorrow and Friday in preliminary swim suit, evening gown and talent competition.

The new Miss America will be chosen from a nationwide television audience Saturday from girls representing 45 states, Canada, Puerto Rico, Hawaii, New York City, Chicago and Washington, D.C.

The contest formally got underway last night with a dazzling parade of the contestants down this resort community's famed boardwalk.

Thousands of spectators watched the 2½-hour parade led by grand marshal Bess Myerson, Miss America 1945. The parade featured 42 floats and the music of 23 bands.

Eighteen contestants rode on floats while the others sat atop specially designed convertibles.

PIN-WORMS MAY BE A FAMILY AFFAIR

Fidgeting, nose-picking and a tormenting rectal itch are often tell-tale signs of Pin-Worms... ugly parasites that medical experts say infect one out of every three persons examined. Entire families may be victims and not know it.

To get rid of Pin-Worms, these pests must not only be killed, but killed in the large intestine where they live and multiply. That's exactly what Jayne's P-W tablets do... and here's how they do it:

First—a scientific coating carries the tablets into the bowels before they dissolve. Then—Jayne's modern, medically-approved ingredient goes right to work—kills Pin-Worms quickly and easily.

Don't take chances with this dangerous, highly contagious condition. At the first sign of Pin-Worms, ask your druggist for genuine Jayne's P-W Vermifuge... the small, easy-to-take tablets perfected by famous Dr. D. Jayne & Son, specialists in worm remedies for over 100 years.

Cycle Riders Hurt in Wreck On South 65

Three motorcycle riders were painfully injured, and two others received minor hurts, in an accident 10 miles south of Sedalia on U.S. Highway 65 about 8:15 p.m. Tuesday night. Three motorcycles which figured in the scramble were damaged.

Kenzie Moon, 19, Route 1, Calhoun, who was a passenger on one of the machines driven by Lawrence Priemeyer, 16, of Lincoln, suffered a broken right ankle, multiple lacerations and bruises about the arms, legs and shoulders.

Priemeyer received a head and neck injury, abrasion of the elbows and shoulders.

Roy Peak, 26, Lincoln, rider of another machine fracture of vertebrae in his neck and fractured right shoulder.

Alfred Moon, 28, Route 1, Calhoun, who "laid his machine down" to keep from crashing into the other two, received slight bruises.

The injured were taken to the hospital in the McLaughlin ambulance. Peak was treated by Dr. T. J. Hopkins and Dr. Donald Proctor treated Moon and Priemeyer. Dr. Robert Stewart, radiologist, reported on the X-rays.

According to the best information Troopers Glenn Means, Warsaw, and Robert Stockdell, of the State Highway Patrol, could gather, the accident originated when Leonard Priemeyer's machine ran out of gasoline and started to pull to the side of the highway.

Roy Peak was riding along side and it was believed his machine hit Priemeyer causing them to be thrown to the pavement. Peak's machine leaving the highway and throwing him.

Alfred Moon riding in back of the two machines involved, rather than to crash into them, tilted his machine or "laid it down," as it was explained, on the highway and skidded on south, missing the others.

Actual movie scenes of a tornado in action will be shown by Robert J. Babb, meteorologist forecaster for Missouri, Kansas City, at the Thursday noon meeting of the Kiwanis in Bothwell Hotel.

I. H. Reed, program chairman, received word from Babb that since weather is his business, that is what he will talk about—mainly on tornadoes, what they do and what we can do about them.

Since most people have seen the aftermath of a twister, Babb points out that the weather bureau believes lives can be saved by undertaking a public education program on what to do. The movie will show a semi-factual account of how lives can be saved, depicting the role of the public, radio and TV and the weather bureau, including scenes of a tornado.

Mrs. Ronald McCoy, Nelson, received painful burns on her arms and abdomen Monday afternoon by steam from a pressure cooker. She was preparing corn at the home of her parents, Mr. and Mrs. Franklin Taylor. She was taken to St. Joseph Hospital, Boonville.

Fires In the City

The fire companies at 4:45 a.m. Monday, were called to 309 East Second where electric wiring had shorted and started a fire. Damage to the residence was estimated at \$300 and \$200 to the contents.

The property is owned by H. C. O'Neill.

The fire companies at 6:58 a.m. Wednesday were called to 2301 S. uth New York where a Yellow Cab was afire. The carburetor backfired and started the fire. Slight damage resulted.

Police Reports

A report was received by the police of the theft of a table model television set valued at \$137 from the Whiteman Air Force Base sometime Tuesday.

Mrs. Frank Schouten, 909 South Harrison, reported the loss of her lady's Elgin wrist watch. It was later reported found.

A prowler was reported at 250 South Prospect about 8:15 p. m. Tuesday on the back porch of the residence. He was gone when the police arrived.

Police were called to 111½ South Ohio where a drunk had got in an apartment and wouldn't leave. He was gone when the police arrived.

A prowler was reported in the 1100 block on West Broadway at 9:10 p. m. Tuesday. Police made an investigation and found the man gone. Later it was learned that an elderly man had become lost from his home.

A radar speed check sign which had been ripped from its standard was found at Engineer and the railroad tracks and taken to police headquarters.

A/2c Charles H. Blythe and A/2c Leon Q. Register of the Whiteman AFB, reported to the police that while they were parked near the Bill Davis Cafe on North Osage some Negroes jerked them from the car and beat them up and "rolled" them.

Police were called to 1509 East Fourth where some young people were yelling and playing a car radio too loud at 1:15 a. m. Wednesday. Everything was quiet when police arrived.

First Ward: Stewart Avenue, Main to Second, 500 feet; West Seventh, Beacon to Warren, 610 feet, both curb and guttering and hot mix asphalt mat coat paving.

Second Ward: South Brown, Sixth to Seventh; South Summit from Sixth to Seventh, both curb and guttering and mat coat paving, 270 feet for each project.

Third Ward: South Washington, 13th to 16th; South Lafayette, 13th to 16th, curb and guttering and mat paving, the projects being 930 feet each.

Fourth Ward: West Ninth, Grand to Prospect; West Ninth, Kentucky to Moniteau, curb and guttering with a mat coat paving, each project being 270 feet.

Mayor Julian H. Bagby then requested the resolution be delayed to ascertain if the city could get bids from contractors for the projects. He explained that he had learned the contractors were not interested due to a recent wage and hour law ruling. The report is being held up pending further investigation.

The Mayor said, "There is no use advertising the resolutions and spending this money unless contractors are interested."

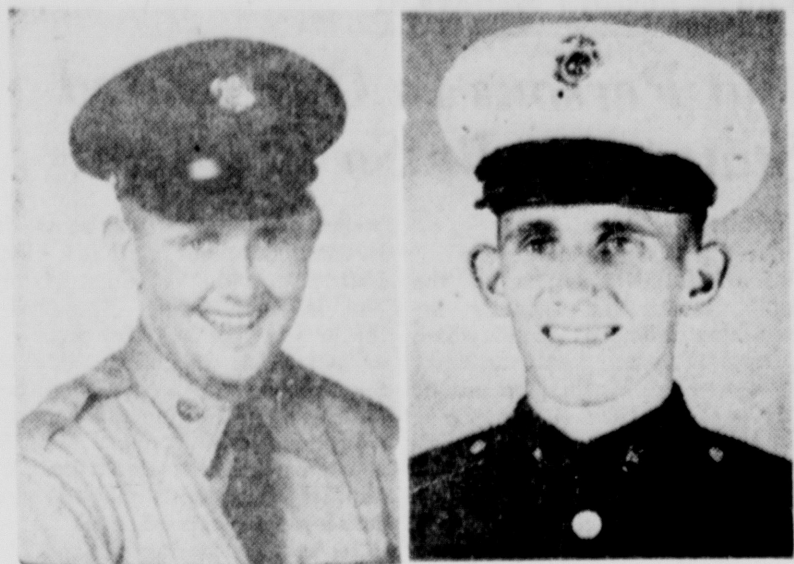

Councilman Garrison also asked the Council to approve the purchase of two sizes of drainage pipe which totals about \$600. It was approved.

Councilman Moore read a petition for a sewer lateral which will be constructed under private contract. It was referred to the city engineer.

Under officers reports, it was reported \$5,059.50 in fines were collected through the police court for the month of August. The airport also showed a decided increase in gasoline business during the month.

Four liquor licenses were approved: package beer license for the Safeway Store; package liquor license for the Crown Drug store; 5 per cent beer license for Duffey's Tavern, 1503 South Ohio; and liquor for the drink for the Pacific Cafe.

Ordinances given final passage were: Creating Sewer District 1

was damaged when it hit a large tree. Holman had jerked the car to the left to keep from hitting a garage when he turned into the alley. The car was towed to the Chamberlin's Service Garage by a wrecker.

Holman was held on a charge of careless driving and resisting arrest in connection with trying to outrun the officers.

Neither of the three apparently needed medical attention, as they refused to be taken to the hospital or to a doctor.

Autumn Weather Across Midwest Part of US

By THE ASSOCIATED PRESS

A touch of autumn weather chilled the northern Midwest and cooler air spread across the north-east quarter of the country today. As the cool Canadian air moved into the Northeast, temperatures

dropped into the 60s in most areas from Kansas through the Ohio Valley to the Atlantic Coast and northward through New England. Light rain fell in scattered areas along the Appalachians.

Lower temperatures and scattered light showers were reported from the Dakotas through most of the Great Lakes region. Thunderstorms rumbled across areas in Texas, Oklahoma and eastern Colorado during the night. Most severe storm was reported at Eldorado, Tex., which was lashed by winds of 75 m.p.h. and heavy rain. The city was drenched with nearly 3 inches of rain in one hour.

Daily Record

Accidents

A parking meter and post was knocked over in the 700 block on South Ohio about 11:13 a.m. Tuesday. Brakes failed on a 1948 Oldsmobile sedan driven by Lloyd Gene Goode, 1301 South Kentucky, and it failed to stop until it hit the meter post.

The bumper on the automobile was damaged, and the meter broken.

The first accident reported to and investigated by the State Highway Patrol was at 10:40 a.m. Saturday at the waterworks bridge on Ingram Avenue.

Involved were two cars, a 1952 Henry J. coach driven north by Clarence W. Aldrich, 1309 East Fifth, and a 1948 Studebaker coach also driven north by Lewis L. Shoemaker, 1616 South Prospect.

According to Trooper Richard Joos, State Highway Patrol, who investigated the accident, the first car slowed down to pull off the road and the second car ran into the rear of the first car. Minor damage resulted to both vehicles.

A minor accident occurred on the Main Street road about 4:05 p. m. Monday. The accident was between a 1952 pickup truck driven by Guy Thomas Yeater, 45, of Route 2, and a 1954 Pontiac coach driven by Curley Joseph Gaudy, 24, of Whittemon AFB.

The two vehicles were headed east on Main Street. Gaudy was starting to pass Yeater, just as Yeater started to make a left turn into the driveway of his dairy farm and the vehicles collided.

The right front fender on the Pontiac was damaged. No damage resulted to the truck.

Trooper Pete Stohr of the State Patrol made an investigation.

Considerable property damage resulted to a truck and light pole at the farm of William Swaford, Route 2, Otterville, about 1 p. m. Monday when brakes on the truck failed and it crashed into the pole. No one was injured.

A large truck loaded with 240 bushels of shelled corn, driven by James Sanders, 18, Otterville, had turned off Highway 50 to go to the Swaford farm just as the brakes failed.

Sanders, unable to stop the truck and to keep it from crashing into the garage and car in the garage, swerved to the light pole, hoping it would stop the moving vehicle. Instead, the truck which carried a weight of nearly 10 tons, splintered the pole, struck a small tree and uprooted it and knocked over a concrete based fence post and pulled it out of the ground.

The light pole crashed, the wires jerked it back and the cross-arms caught the right side of the truck doing considerable damage.

A repair crew from the REA Co-Mo Electric Co., Tipton, went to the scene, removed the wires which fell across Highway 50 and made necessary repairs to the power line.

The load was removed from the big truck and hauled to bins in a smaller truck before the wrecked truck could be pulled out of the yard.

The truck is owned by Otto Zimmerschied, Otterville.

There were more traffic accidents reported within the city limits of Sedalia than were reported in the county over the period from midnight Friday to midnight Monday—the Labor Day Holiday. There were four in the city and two in the county.

At 7:02 a. m. Sunday two cars

collided at Fifth and Washington, doing damage to both vehicles. No injuries were reported.

The cars were a 1953 Chevrolet sedan driven by Mrs. Ernest Goldsmith, 1227 South Stewart, headed west on Fifth and a 1939 Chevrolet sedan driven by Mrs. Lula Mae Petree, 820 West Henry, headed south on Washington.

The right side, fender, hub cap and chrome on the left side of the Goldsmith car was damaged and the left front fender and left headlight on the Petree car were damaged.

A truck and a passenger car were involved in an accident at Broadway and Engineer at 9:52 a. m. Monday, doing slight damage to the front of the passenger car.

The collision involved a 1957 Pontiac sedan driven west by James A. Frey, DuBois, Neb., and a 1953 GMC 2-ton truck being driven west on Broadway by Charles R. Siron, 902 South Thompson and belonging to Tullis-Hall Dairy Co.

According to the police report, the truck stopped for a red traffic light and the Pontiac struck the rear of the truck. The front end of the Pontiac was damaged. There was no damage to the truck.

A car and truck collided in the 300 block on West Main about 11:45 a. m. Monday.

Involved was a 1941 Chevrolet sedan driven by Jess Reed Hoke, Route 2, Nelson, who was headed west on Main, and a 1951 Chevrolet panel truck driven by Jack G. Kehl, 1608 West Main, who was backing out from the curb.

The right side of the car was damaged and the taillight on the truck broken off.

Three youths were injured, none seriously, when a car they were riding in crashed into a tree at the alley between Kentucky and Osage on 13th, as the driver, Bill Herman Holman, 18, tried to make a left turn into the alley while trying to evade the police.

Holman, who lives at 1306 South Lamine, was driving a 1939 Ford which the police started to check at Third and Engineer. With Holman were Charles Bobbitt, 25, Otterville, who received a cut on the left ear, and Franklin Case, 20, 1215 1/2 South Lamine, who received a bruised left knee. Holman had a slight cut at the hairline on his forehead.

Police in a patrol car noted the automobile at Third and Engineer without lights and started to stop it for a check. Holman drove on to Third and Summit, thence south to Tenth, then turned west to Ingram, south on Ingram to 13th, west to Lafayette, thence south to 14th, west on 14th to Osage, north on Osage to 13th, thence west to the alley where the accident stopped the car.

Let There Be Light—And Gas

Results of the franchise election Tuesday authorizing the Missouri Public Service Company to continue serving Sedalia with electricity and gas service is gratifying.

Two thousand persons took the trouble to go to the polls and vote on a non-controversial issue. This is good citizenship. Few as they were, the negative voters should be complimented, too. One hundred and one of them expressed their disapproval of granting a franchise. This is democracy at work.

The total vote was about 45 per cent of the normal response at city election time when local issues become hot. Hence the 2,000 vote under the circumstances of no contention may be considered a vote of confidence in the Missouri Public Service Company.

Then, too, in Sedalia there is an average negative vote of 1,200 on any issue. So when only 101 turn out to vote for abolition of electricity and gas

that's pretty good indication the service hasn't been bad under the present management.

Examination of the election figures indicates the ribbon of popularity must go to the gas department which netted three votes more for the renewal of the franchise and one vote less on the "no" side. This comes as a shock to the electricity department which always had looked with some disdain on the gassers.

Of immediate public interest as a result of the vigorous approval of the Missouri Public Service Company service, is the latter's intention to accelerate new street lighting downtown and on Broadway and installation of new traffic signal lights.

To those who took the trouble to vote Tuesday, hearty congratulations. Wouldn't it have been a dismal and chilly fall in Sedalia without electricity and gas if the negative voters had won the election?

Gangsters Thrive On Miami Beach

By JACK ANDERSON

MIAMI BEACH — When the Teamsters converge on these gilded shores for their convention later this month, they'll find more racketeers per square mile than anywhere else in the country. They'll also find that Bob Kennedy's Senate sleuths have been here ahead of them.

The scandal-scarred Teamsters couldn't have picked a more auspicious place to dramatize their ties with the underworld. Bankroll-flashing mobsters hang out in the pastel palaces along Collins Avenue, mingling with portly businessmen and their bejeweled wives who come to Miami Beach for the world's most expensive sunbaths.

In the dazzling honkytonks here can be found the biggest names in both cafe and criminal society, who's who in the social register and the rogues' gallery.

Following up Senate investigators, this column scouted underworld haunts, traced phone calls between racketeers and interviewed both the cops and the crooks who prowl the neon-lit night here. Here are our findings.

Hoodlum Hangout

Arriving hoods check in at the Gold Coast Lounge in Hollywood, Fla., a few miles up the coast from Miami Beach. This appears to be the underworld message center in the Miami area. Telephone records show daily calls to gangland chiefs all over the country.

An unlisted phone behind the bar and a pay phone in the corner are kept busy with calls to such notorious gangsters as Vincent "Jimmy Blue Eyes" Alo, who succeeded Frankie Costello as racket boss in the New York area; Paul "The Waiter" Ricco, who sold his Lake Michigan mansion to the Teamsters; Johnny Dio, who socked a photographer during the recent Senate racket hearings.

Also on the phone at the Gold Coast Lounge have been mob chiefs in New York, Chicago, Detroit, Cleveland, and Los Angeles, not to mention almost every known hood in the Miami area.

The Lounge is run by blimp-bellied Joe Sonken, who, police say, was formerly a partner in the Chicago call-girl racket with Pete Ornstein, alias Petey Arnold. The pair came to Miami a few years ago and opened Mother Kelly's Night Club.

Jewel Job

Ornstein also is considered one of the slickest jewel thieves in the big time. In 1950, he was picked up for attempted jewel robbery in Washington, D. C. Miami police have investigated but never caught him practicing the same profession.

A Negro bellboy identified Ornstein and Mattie Hochberg, as the cool thieves who walked off with a salesman's sample case full of expensive jewelry simply by asking for it. Ornstein posed as the salesman and asked a clerk to get it out of the hotel safe.

Afterward, the bellboy suddenly came into a small fortune and opened his own hamburger stand out of town. Police couldn't get him to talk until the statute of limitations had run on the crime.

A few months ago, the Ornstein-Hochberg partnership was dramatically ended by a well-aimed rifle bullet. Hochberg got it in the back

Guest Editorial—

CAPE GIRARDEAU MISSOURIAN. Which Came First? The argument that "rising prices do not cause inflation; they are the result of inflation" has been put forward by one of the nation's leading steel men. It is an observation reminiscent of the ancient poser, which came first — the egg or the chicken?

And with prices and inflation of late — as with the egg and the chicken — whichever came first, they have been taking turns ever since.

To get back to the testimony of Roger W. Blough, chairman of the board of the United States Steel Corporation, at a Senate Anti-Trust and Monopoly Subcommittee hearing.

Talking about the recent price increase in the steel industry, Mr. Blough pointed out that the price of steel is amazingly low, "cheaper—pound for pound — than almost anything else you can buy."

That may be. But if steel is cheap, it's not as cheap as it was. And the price of anything so widely used in the economy as steel must have a considerable effect on living costs.

Mr. Blough said the \$6-a-ton boost last July 1 was an increase of only 4 per cent while the wage boost effective the same day was "about a 6 1/2 per cent increase in our total costs per man hour."

Whether this means the makers aren't even keeping up with their increased labor costs is not clear. There are other factors in the equation, but none as important as wage costs.

while he was shaving. Police are still investigating the murder.

Senate Angle

Senate investigators have found a labor-racketeering angle that may permit them to crack down on both Sonken and Ornstein. The 250-pound Sonken muscled in temporarily on the local plaster tenders, hod carriers, construction and general laborers union.

Senate agents have also traced several phone calls to Ornstein from Anthony Goebels, alias Tony Ricci, in New York City. The Rackets Committee is investigating Ricci's connections with the garbage collectors' union. They suspect he deposited union funds in his private banking account at the Dreyfus Brokerage firm.

Meanwhile, a grand jury is investigating charges against Miami Beach's former police chief, Romeo Shepard. The city council thought enough of the charges to replace Shepard as police chief.

The decent people in the Miami area are trying to curb the racketeer influence on Miami Beach. Their latest move is to appoint tough, honest Dan Sullivan as county safety director with power to enforce the laws throughout sprawling, sun-soaked Dade County.

Already the hoods are taking to cover.

Worth Weight In Gold

Will the new twenty-year old Aga Khan IV, Faiz Karim, spiritual leader of the Ismaeli faith, a branch of the Asian Moslems, continue the custom of his predecessor of receiving contributions in silver, gold and platinum according to his weight?

The former Aga Khan revived the ancient weighing-in custom for his silver jubilee. He weighed 244 lbs. although only 5 ft. 6 inches tall. At each succeeding jubilee, he continued to receive his weight in gold, then diamonds, and finally platinum. The latter netted \$108 per ounce and the Khan had then shriveled to a mere 215 pounds.

The money thus collected was never used for the Aga Khan's personal fortune. He did not exactly need the money as his estimated wealth was well over a billion dollars. Instead, the money went into a fund to help every member of the Ismaeli sect to own his small business by the year 1960. In fact, this weight money collected became a small business administration similar to Uncle Sam's Federal Housing Authority.

Aga Khan IV at the age of 20 is over 6 feet tall and weighs only 153 lbs. If he wishes to continue his grandfather's custom, he better start increasing his calories.

Costly Air Salute

Gen. Nathan Twining, retiring as Air Force Chief of Staff to become chairman of the Joint Chiefs of Staff, has served his country long and well, in and out of battle. He deserves the highest honors—and fitting ceremonial tributes.

In today's high cost age, however, it has become a serious question whether those tributes in his or any other case ought to include expensive air displays.

As the general finished his tour of duty, some 260 jet fighters and bombers whooshed over Maryland's Andrews Air Force base in salute. Senator Chavez, New Mexico, says this parting compliment cost the government—and the taxpayer—\$400,000 just for fuel alone.

Since a B-52 jet bomber consumes enough fuel in 10 minutes to power a moderate priced automobile for 100,000 miles, this seems believable enough. And to this must of course be added all the other expenses incidental to the demonstration—to say nothing of possible crashes, with loss of valuable pilots and expensive aircraft.

Fly-overs are impressive stuff, but it might be wise if hereafter we relied a little more on old-fashioned words and handshakes. They're a good deal cheaper, and can be just as sincere as 260 jets.

The earth has an area of 196,940,400 square miles, of which 55,885,000 square miles are land and 141,055,400 square miles water.

Patience Is One of President's Policies

By JAMES MARLOW
Associated Press News Analyst

WASHINGTON — President Eisenhower has been something less than vigorous in supporting federal judges who ordered public school integration in the South and then ran into opposition. Patience has been his motto.

Patience, in fact, has been one of his most persistent policies toward problems at home and abroad. He's been using it for all it's worth toward the problems arising from attempts at integration.

Eisenhower, who carefully avoids saying anything to offend Southerners, except for criticizing "extremists on both sides," has never yet said publicly he approves the Supreme Court's ban on public school segregation.

"I am for moderation," he has said, "but I am for progress." And there has been progress toward integration. Whether there would be much more if he spoke out forcefully for integration is so far one of the unknowns of history.

He used his patience again yesterday when Arkansas Gov. Orval

Faubus blocked a federal court order to integrate Little Rock's Central High School by ringing it with National Guardsmen.

Faubus denied he was defying the court and said he called out the troops to keep peace and order. But he also said his action could possibly develop into a "Southwide test."

But the school board — which had been ordered by Federal Dist. Judge Ronald N. Davies to integrate the school—interpreted Faubus's use of troops as an effort to prevent integration and ordered would-be Negro students to stay away.

Only a week ago Faubus had asked a state judge to prevent integration at Central High.

Eisenhower was asked about all this at his news conference yesterday. He said the Justice Department was investigating and "the next decision will have to be by the lawyers and jurists."

Thus Eisenhower once again avoided becoming personally involved although this may have been cold comfort for Judge Davies, who had to stand by and see his integration order stymied.

But the judge appeared capable of standing on his own two feet. Since the school board, because of the troops, had stopped integration it faced the possibility of being found in contempt of the court's order to integrate.

So the board appealed to the judge last night. The judge promptly called the governor's board—by ordering the board to go ahead and register the Negroes.

This left the next move up to the governor who now, if the troops in any way prevented Negro registration, could find him-

self in defiance of the federal government and possibly in contempt of court.

What would Eisenhower do in a case like that? He wasn't asked about it yesterday. But a year ago he went as far as he has ever gone in explaining what he would do if a court were defied.

He didn't actually explain what he'd do. He simply said U.S. marshals could serve warrants. But how the marshals could serve a governor surrounded by troops—or force him to appear in court—is a problem Eisenhower hasn't had to face yet.

Just a year ago the then Texas governor, Allan Shivers, used Texas Rangers at a school in Mansfield, Tex., where mobs, protesting a court order for integration there, assembled to keep Negroes away.

Asked about the problem at his news conference on Sept. 5, 1956, Eisenhower said in part: "Until states show their inability or their refusal to grapple with this question (mob action that prevents integration properly, which they haven't yet . . . we'd better be very careful about moving in and exercising police powers."

The mob action in Mansfield apparently was successful. Negroes weren't able to register then and now, a year later, none is registered at the school. Eisenhower has said the Supreme Court's word is law and he's bound to uphold the law.

But when asked that same day, Sept. 5, a year ago, if he endorsed the court's antisegregation ruling, Eisenhower said: "I think it makes no difference whether or not I endorse it." He said he must uphold the Constitution.

burned in a fire I started to burn a pile of leaves, after I left it and went in the house. Am I liable?

A. You may be! Fire is a hazardous agency, and attractive to small children. You should watch it until the fire burns out and should wet it down afterward.

Q. I bought a standard fire insurance policy on my home. Does this also cover tornado damage?

A. Not necessarily, for the standard Missouri policy insures only against direct loss by fire and lightning. But you may obtain, under extended coverage provisions, insurance against tornado, and other such types of losses.

Q. Can a man prevent his wife from taking any part of his estate on his death by leaving her one dollar in his will?

A. No. Under Missouri law, no matter what the will provides, the surviving spouse may elect to take one-half of the estate if there are no children of the deceased husband, or one-third of the estate if children survive.

These are only a few of the ways the law operates in our everyday lives.

(This column is written by the Missouri Bar Association to inform and should not be regarded as advice for specific cases since facts may change the application of the law.)

LITTLE LIZ

There are other things in life besides money—but they cost money.

Q. I own my house together with my wife. Is this joint tenancy just as good as a will?

A. It is in the same sense that a size 34 suit will fit a man. It fits some but not others. Joint tenancy is not a substitute for a will, because it does not cover other property you own. In addition a will permits you to control your property until you die.

Q. Is the deed complete proof of ownership of my property?

A. This deed is no better than the title the previous owner actually had. This can only be determined by thorough title examination based on public records, including details of deed restrictions, zoning ordinances, etc.

You Wouldn't Believe It

But Persons In Our United States Can Be So Illogical

By Joseph A. Dear

OF OUR Washington Bureau
WASHINGTON — One of the beauty queens who recently arrived here from a state which shall not be named wanted to know if this was the Washington on the East or West coast.

In the State Department an attractive secretary, on examining a UNESCO poster entitled "Learn About Asia," plaintively asked: "What in the world is A-S-I-A?"

At the London Disarmament Conference our boys hinted we would cut military manpower to 2.5 million provided the Russians made some similar gesture. Before the Russians could gather breath to snap "nyet," the Pentagon announced that 2.5 million was the new manpower ceiling. A shrewd stroke, eh?

And out in Wisconsin disgruntled voters register their irritation with Ike's liberal policies by electing Democrat Bill Proxmire to the late Joe McCarthy's Senate seat. Of course Proxmire is more liberal than Ike's man Walter Kohler, the defeated Republican candidate. All somewhat illogical.

In fact, it seems illogical that the American poujade movement isn't making headway faster. Poujade, you know, was that French Don Quixote who enjoyed brief but unsettling political success by exhorting his countrymen not to pay taxes. We have a native poujade movement which is working for repeal of the personal income tax.

September 13 the American Poujade Movement will stage a national tax protest rally in Chicago. Rep. Ralph Gwinn, who has significantly increased the size of the postal deficit by abuse of his free mailing privilege, will speak on reducing the power of the federal bureaucracy. A Willis Stone of the American Progress Foundation will "prove" that the personal income tax can be repealed if the government stops competing with private enterprise. Dan Smoot, who was once associated with Texas oil tycoon H. L. Hunt, will tell us that our taxes support communism. And so forth.

This information about the rally comes from Free Men Speak, a paper which apparently is the semi-official organ of the movement.

The last issue of this fascinating paper immediately available here

is provocative: It detects no difference between a "New Deal Democrat and a Socialist-Internationalist-Republican." (Presumably that's what Ike is.) Dan Smoot, in a column, is for impeaching the Supreme Court. An editorial argues that a 25 per cent personal income tax ceiling isn't enough. The personal income tax must go. And Senator Knowland is only a pseudo-conservative, according to an article by Phoebe Courtney.

As was noted, it is just a little surprising that the native poujade movement fares so poorly. It's unlikely that any political party will be able to produce any rational program that could eliminate most of the frustrations that go with these times. But as long as we have enough discipline to reject utterly irrational schemes the Republic can endure. And if there are nettles, we can always console ourselves in the knowledge that matters could be worse, even if we don't see how.

Thinking It Over

By Robert L. Diefenbacher, D.D.

Satan, as the opponent of God, is a strange adversary. In his bidding for the interests of man he uses many talents. He is a super salesman who offers tempting items of no value at high prices and on terms which appear attractive. He buys to his own advantage, and trades so shrewdly that every deal is crooked. He makes his dishonest merchandising appear intriguing and worth his price.

Temptation catches us off guard. We occasionally become enmeshed in affairs which are devastating to our better selves. It is so easy to make a thoughtless decision. We must then pay a price to gain back our freedom from his bondage.

We must walk near to God if we wish to avoid the byways and detours which lead to wrong doing. God's way must be sought by all of us.

Ruth Millett Says

Record For Mama's Pleas Will Save Wear And Tear

"Keep your voice pleasant. A sharp, nagging or disgusted tone of voice used by a mother in speaking to a child makes for an unpleasant atmosphere in the home," says a child guidance expert.

Since nobody ever tells Mama just how to keep her voice calm and pleasant when she is telling Junior for the fifth time to go to bed, I'm offering a suggestion:

Why not a gadget for the home on which Mama can make a number of recorded requests and commands in a nice, sweet, calm tone of voice?

Then instead of saying irritably, "Please turn that thing down," Mama can simply push a button

and her own calm recorded voice will give the request pleasantly.

When you stop to think about it, mothers' voices usually grow sharp when they are repeating a request for about the sixth time.

"I've told you over and over," begins Mama. Then her voice starts to rise in anger.

About 20 recorded announcements ought to take care of a mother's most often repeated requests.

If the experts aren't going to let us be human enough to show irritability when we have said "no" four times, then maybe we need a set of recorded remarks.

A mother isn't a machine. But if she is supposed to act as unemotional as one, why not let a machine make it easy for her?

SAAF Vets Are Guests At Whiteman

The Sedalia Army Air Field veterans of World War II were guests at the Whiteman Air Force Base Sunday afternoon for a tour of the base. Airmen's Service Club and the NCO Club. The tour followed a luncheon served at the Officers Club to the vets and members of their families.

S-Sgt. J. H. Moon, of the Information Service Office, was in charge of the tour and arrangements for activities of the base.

The vets and their families met at the courthouse Sunday morning shortly after 10 o'clock and went in a caravan to the base. They entered the base at the "main gate," that is, the main gate they knew when they were stationed there during the war.

At the officers club they inspected it and were served a luncheon cafeteria style.

Following the luncheon, they motored over the base looking at the new installation, and seeing one of two of the old type barracks in which they lived during the war. Those long "ranch type" buildings covered with black tarpaper. They heard a review of the activities of the Strategic Air Command by S-Sgt. Moon in the large ball room of the Airmen's Club.

They then went to the NCO Club where they had refreshments, and pictures were taken of the group which had remained at the base for the tour.

Plans were already started for the 1958 reunion to be held over next Labor Day weekend. Arrangements are in the planning stage to switch the banquet to Sunday night, with a cocktail party on Saturday for the early arrivals. A more extensive program is planned for Sunday, possibly carrying over into Monday.

Better than 90 per cent of the men who were in attendance came from out of the state, and surprisingly few local men who served at the SAAF during the war attended the reunion. Officers of the organization are hoping for better cooperation from the home folks in 1958.

Woman's Dog Routs Armed Robber, Loses Life From Gunshot

DETROIT — Mrs. Charles Livingston's dog Tex, a 4-year-old mixed breed, routed an armed robber to protect his mistress yesterday — at the cost of his life.

Mrs. Livingston, manager of an apartment building, opened the door to a man who said he wanted to make a deposit on an apartment.

Once inside, the men pulled a gun and demanded money.

At that moment Mrs. Livingston's husband returned home.

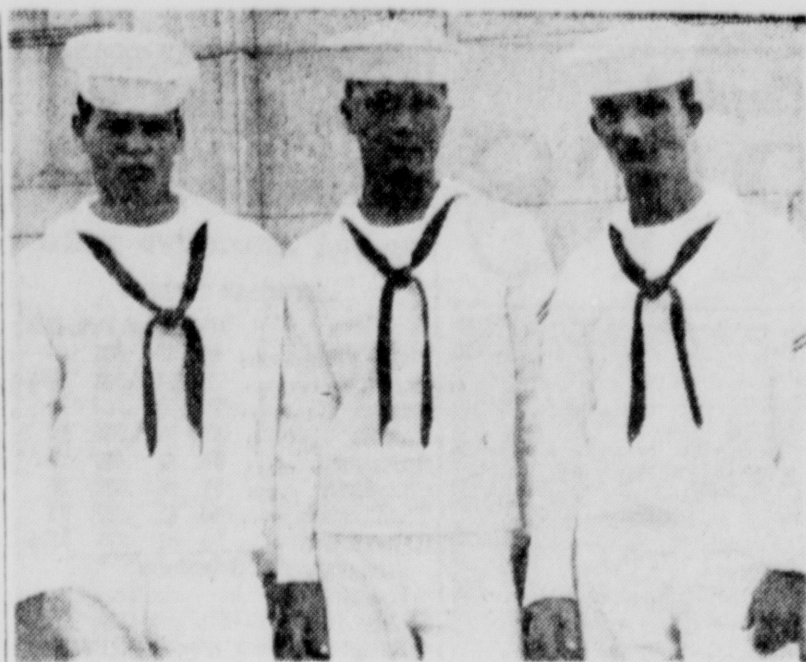

The robber braced himself, back to the door, and, as Mrs. Livingston seized his arm, Tex sprang at the man. The dog sank his teeth in the man's arm. The robber shot Tex in the back, freed himself and escaped past Mrs. Livingston's husband.

Official Predicts Million Dollar Gain From Offshore Oil

HARRISBURG, Pa. — A state official predicts Pennsylvania may benefit by millions of dollars when it leases the first offshore oil and gas drilling rights along Lake Erie later this month.

"We have no hope of this being any way near as big as the offshore operations now under way in the Gulf of Mexico and off the coast of California," said Robert C. Barwick, "but it could well mean millions of dollars for Pennsylvania just the same."

The state has fixed Sept. 24 to receive bids for leasing of two sections off Lake Erie, one 19,300 acres and the other 16,300 acres. Leases will be awarded the highest bidders with each operator required to pay the state royalties of an eighth of the field price of oil or gas that is recovered.

ON YEAVE—Thomas Lee Harris, left, son of Mr. and Mrs. C. W. Harris, 312 East Seventh; Charles Adolph Barnes, center, son of Mrs. Muriel Barnes, 1210 East Tenth; and Larry Joe Light, son of Mr. and Mrs. W. H. Light, 610 South Montgomery, are at present home on leave from the San Diego, Calif., Navy training station, visiting with parents and friends.

All three young men are graduates of Smith-Cotton High school class of 1957. They enlisted under the Navy's high school graduate program, which assures them of a Navy trade school upon completing basic training.

Barnes and Light will attend their trade school at Norman, Okla., while Harris will attend school in Chicago, Ill.

Boys Would Camp Out To Escape Classroom

HOUSTON, Tex. — School seemed a dismal prospect to Cornelius Bilamowicz, 7, and his brother Raymond, 4.

So the patama-clad boys set bravely out before dawn yesterday, prepared to camp out for a year if necessary to avoid the classroom.

When police interrupted their safari, they were headed into the wilds along Hunting Bayou, armed with an air rifle "to shoot game with" and a tarpaulin.

Raymond was reminded that he

had more than a year of freedom from school left. Raymond said he knew that, but he and his brother were going to "stay next year" if necessary.

Lon Stanton Regains State Archery Title

Lon Stanton of Lake Ozark regained the Missouri Bow Hunter's championship from Bob Brandt of St. Louis in the tenth annual state tournament held in Sedalia over the Labor Day weekend. Over 130 archers from over the state participated in the three day event.

There Is New Althea Gibson On the Court

FOREST HILLS, N.Y. (P)—There is a new Althea Gibson seeking the national tennis championship this year.

The old Althea Gibson was nervous, high strung, irritable.

The new Althea Gibson is calm, confident, poised.

The 30-year-old Miss Gibson first came to Forest Hills in 1950, an unknown Negro girl from New York's teeming Harlem. She caused a ripple by almost beating Louise Brough.

She came each year only to be frustrated. Last year she made it to the final only to be beaten by Shirley Fry. She was jumpy that day on the center court and her game showed it.

Now, as Wimbledon champion, she fears no one in her quest to join the select circle of Wimbledon-U.S. champions. Only Helen Wills, Alice Marble, Maureen Connolly, Pauline Betz and Miss Fry are members of the exclusive club.

"I don't fear any player in the tournament," she said today. "Why be afraid of anyone? After all, it's only a game."

Miss Gibson is in the quarter-final along with Mrs. Mary Hawton of England, Mrs. Dorothy Knodel of Forest Hills, Lois Felix of Meriden, Mass., and Miss Knodel of Forest Hills, Lois Felix of Meriden, Mass., and Miss Brough.

In yesterday's play Miss Gibson eliminated Britain's Sheila Armstrong 6-2, 6-1; Mrs. Hawton turned back Mrs. Pat Todd, La Jolla, Calif., 6-4, 6-1; Mrs. Knodel whipped Ann Shilcock of Britain 6-2, 6-1; Miss Felix upsets Christine Truman of Britain 6-2, 6-1; and Miss Brough defeated Lorna Raymond, Covina, Calif., 6-0, 7-5.

In the men's division, Ashley Cooper of Australia, Budge Patty of Los Angeles and Cliff Mayne of Fort Monmouth, N.J., jumped the pack and gained the quarter-finals. Cooper turned back Tony Vincent, New York, 6-3, 6-2, 6-2; Patty crushed Don Fontana of Canada 6-4, 6-2, 9-7; and Mayne prevailed over Don Thompson, New York, 7-5, 6-3, 6-4.

Vic Seixas of Philadelphia meets Australian Roy Emerson and Dick Savitt of Orange, N.J., goes against Mal Anderson, another Aussie, in today's top matches.

Jet Bomber Crashes Into an Oil Tank; 3 Crewmen Escape

DANBURY, Tex. (P)—A B-66 jet bomber from Hurlburt Field in Florida crashed into an oil tank near Danbury last night, setting off a fire visible for miles.

The three crewmen parachuted before the crash. All three were injured, one critically, when they ejected themselves after the plane developed engine trouble.

Officials at Ellington Air Force Base at nearby Houston identified the crewmen as Capt. Arthur J. Manzo, 30; 1st Lt. David E. Moore, 25; and Sgt. Albert I. Newland, 26.

Manzo was reported in critical condition with a skull fracture. Moore had a broken ankle and Newland a fractured arm.

NOISY NEIGHBORHOOD—A hen pheasant certainly found a noisy neighborhood in which to raise her family. She laid her eggs 50 feet from a busy runway at New York's LaGuardia Field. Airport gardener John Moloney examines the nest of 14 eggs while the pheasant is away. She does most of her egg-sitting at night. The sun takes over in the daytime.

Stanton, titlist in 1955, won back the crown with a score of 1,394, coming on a 414, 500 and 400 series. Brandt was nosed-out of the runner-up spot by Jim Fletes, St. Louis, who registered a 1,228 score. Brandt's score of 1,225 was good for third place.

Mrs. Joan Curran of St. Louis repeated as champion in the women's expert division with a 965. Pat Curtis, Joplin, gained second place on an 845 and Joyce Janssen, St. Louis, was third with a 781.

Other tournament results: Men's Expert "B"—1st, Lauren Williams, Sedalia, 1086; 2nd, Donald Kiel, St. Louis, 1077; 3rd, Richard Marlay, Springfield, 1074.

Men's Bowman—1st, Lloyd Abernathy, St. Louis, 1024; 2nd, J. M. Barnes, Kansas City, 960; 3rd, Carl Buehler, Lake Ozark, 906.

Men's Archer—1st, George Fisk, Kansas City, 837; 2nd, James Fletes, St. Louis, 816; 3rd, Cliff Adams, Columbia, 809.

Women's Archer—1st, Maxine Buehler, Lake Ozark, 532; 2nd, Leta Martin, Lake Ozark, 464; 3rd, Ethel Fogleman, Columbia, 401.

Women's Bowmen—1st, Betty Massman, Moberly, 740; 2nd, Donna Dale, Kansas City, 671; 3rd, Flossie Pirtle, Sedalia, 665.

Intermediate (13 through 15 years)—1st, Jim White, Springfield, 1129; 2nd, Gene Beckerle, St. Louis, 1058; 3rd, Fred Bolkenhorst, Jefferson City, 603.

Junior (12 years and under)—1st, Eric Brumm, St. Louis, 1389; 2nd, Stardia Fletes, St. Louis, 1050; 3rd, Jerry Barnes, Kansas City, 992.

Sunday night the Missouri Bow Hunters held their annual banquet at the Bothwell Hotel with nearly 100 in attendance.

The tourney in Sedalia marked the tenth anniversary of the organization. The first tournament was held in Sedalia in 1947. At that time, archery in Missouri was an infant sport and only 60 archers participated. Hugh Collins of Sedalia has been a leader in the Missouri Bow Hunters from its conception and through his efforts the tournament has grown until it is one of the finest in the Midwest.

Collins, known to Bow Hunters as the Grand-daddy of Archery, was honored by the group with an inscribed plaque just prior to the dinner.

Score Hopes to Pitch Again Before Major League Season Ends

CLEVELAND (P)—Southpaw Herb Score says he will pitch again "as soon as I think my deep perception is good enough—this month, I hope."

It will be four months on Saturday since the Cleveland Indians' star was felled by a liner off the bat of Gil McDougald in a night game here with the New York Yankees. The ball hit him flush in the right eye and caused the retina to swell.

"I feel alright, and I can see pretty well," Score said last night. "In fact, I can see a lot better than I could a few months ago. But when I am on the mound I have trouble picking up the ball as soon as it leaves the bat. Sometimes I reach for it, and it isn't there."

Score said he believes this problem will be solved. His eye specialist has told him it is a temporary condition.

Some persons want Score to wait until next spring to pitch, but he differs.

"I'd like to pitch before the season ends so that I don't have to spend the whole winter worrying. I want to regain my confidence as soon as I can."

Casey's Chief Lead Danger Is Injuries

BALTIMORE (P)—Manager Casey Stengel's biggest worry about whether the New York Yankees can hold their 3½-game lead in the American League seems to be injuries to his team.

"If that fella is all right, well—he isn't we're in a bad plight."

The "fella" he pointed to in the batting practice cage was Mickey Mantle.

Mantle isn't "all right" and it's showing in the Yankee performance. The great hitting outfielder has been suffering with aching shins since a series in Kansas City Aug. 20-22. The Yankees have lost seven of their last 13 games although giving no ground to the Chicago White Sox.

Stengel has no fear of the Sox head to head. Even with Mantle ailing, the Yanks beat them three straight games about a week ago.

"They beat me one series by pitting the ball around the infield," he said. "They have nothing much except speed. It seems every time you look up they have a man going from first to third. They beat us one game this season by just hitting the ball in front of the plate."

Stengel figures he has some speed. "If I can play Tony Kubek in left, Mantle in center and Hank Bauer in right, we're pretty fast too, aren't we?"

Bauer is another of the injured Yankee players who has Stengel frowning. He has a fractured thumb and may be out for another week.

But the big worry is Mantle. The switch-hitting ace still is hobbling like an old man with arthritis.

His batting average dropped seven points, from .377 to .370, in the three game series with the Baltimore Orioles ending yesterday. He got one hit in 15 times at bat.

Equally important to the Yankee scheme is Mantle's inability to show any speed covering the outfield. Fly balls which he normally would catch with ease are dropping in for hits simply because he can't reach them. One such went for a double over his head against the Orioles.

Cardinals Bomb Six Cincinnati Pitchers For 14-4 Victory

By THE ASSOCIATED PRESS

Shackled offensively in 10 previous games without injured star Stan (The Man) Musial, the St. Louis Cardinals finally broke loose last night at Cincinnati and opened a 1½ game lead over Brooklyn's fading champions in the fight for second place.

The Red Birds bombed six Red leg pitchers for 16 hits, including Del Ennis' 18th home run, for a 14-4 victory behind Vinegar Bend Mizell.

In 10 previous games without Musial, the National League's top hitter at .340, the Cardinals had scored only 27 runs, an average of less than three a game, and had won only four while losing six.

Hal Smith had four RBIs, one more than he's had since July 1 in his batting slump. Ken Boyer drove in two, Ennis three and Mizell three runs.

Smith, Al Dark and Joe Cunningham had three hits each.

Mizell, making a comeback after a bad start, made his record 7-10 with the victory.

The Kansas City Athletics had an open date.

Will Bury 80 More Victims of Worst Railroad Disaster

KINGSTON, Jamaica (P)—Eighty more victims of one of history's worst railroad disasters will be buried in private funerals in Kingston today.

A special train brought their bodies to this Caribbean capital city yesterday as 80 others were being covered with rain-drenched red earth at a mass grave near the train's wreckage, 60 miles from here.

The unofficial count of those killed Sunday night, when a holiday excursion train broke apart on a steep curve, has risen to 183. Other bodies are believed to remain in the wreckage at Kendal station, five miles from the mountain mining village of Mandeville.

Girl Writes Letter To Benjamin Franklin

PHILADELPHIA (P)—"Dear Ben Franklin," wrote an unidentified 7-year-old girl from Columbus, Ohio, a recent tourist visitor to Philadelphia.

"Thank you for the nice picture you gave me. I like you very much but I am worried about the crack in the Liberty Bell and I am writing this so you will please take care of the Liberty Bell."

The note was addressed to the Benjamin Franklin Hotel here.

Fullmer and Vejar Hope for Title Shot From Tonight's Bout

WEST JORDAN, Utah (P)—Gene Fullmer of West Jordan and Chico Vejar of Stamford, Conn., meet tonight in a 10-round nationally televised (ABC) fight which each hopes might put him in line for a title shot.

Fullmer, the pressing, wind-mill type mauler who won the 160-pound title from Sugar Ray Robinson last January only to lose it in a return-bout knockout four months later, was favored 3-1. The No. 1 challenger would get him another title shot at the winner of the Robinson-Carmen Basilio fight later this month.

Vejar hoped a victory over the Utah strong boy would catapult him into the top 10 of the class—maybe into a title shot.

The fight was scheduled for 8 p. m. CST.

Part of the card's drawing power was attributed to the preliminaries, which feature Gene Fullmer's two younger brothers—20-year-old Jay, a welter (5-0) in an 8-round bout, and Don, 18, a 160-pounder, in his second professional fight.

Williams Is Forced Out by Infection

BOSTON (P)—Ted Williams was bedded with a respiratory infection at home today as the Red Sox flew to New York for a two-game series with the Yankees.

Dr. Ralph McCarthy, Red Sox physician, said last night Williams still was running a slight temperature and "I'm not going to allow him to go to New York."

Williams, who celebrated his 39th birthday last Friday, was forced out of the starting lineup the next night in Baltimore. He leads New York's Mickey Mantle by six points—376 to 370—in their battle for the American League batting title.

Band Leader Claims Divorce and Wants Alimony Cancelled

LOS ANGELES (P)—Ina Ray Hutton says she no longer is married to Randolph E. (Randy) Brooks and asks Superior Court to set aside its order to pay him \$35 weekly temporary alimony.

Miss Hutton, 41, leader of an all girl band, told the court yesterday that when the order was issued July 26 her attorney failed to tell the judge that exactly a month earlier she had been awarded a Las Vegas, Nev., divorce from Brooks, 41-year-old former trumpet player.

A hearing on the alimony petition was set for next Wednesday. Brooks, who described himself as unable to work because of illness, obtained the alimony order pending trial of his suit for separate maintenance, which charges cruelty. They married April 10, 1949.

Moore Club Loses To Smithton Team

The Sedalia Moose Club dropped a 6-5 thriller to the Smithton Merchants in nine innings at Housel Park Tuesday night.

The Moose play two more games this week, meeting Tipton at Tipton on Thursday night and at Smithton again on Friday night.

Al Lopez Sees Possibility Of First Place

DETROIT (P)—Al Lopez, who should be accustomed by now to finishing second to the New York Yankees, stubbornly maintains that his Chicago White Sox still can catch the league leaders—"with a little luck."

Lopez finished second to the Yankees five times in his six years as manager of the Cleveland Indians, and barring a miracle of sorts, he will do it again in his first year at the White Sox helm.

"We're not dead yet," he said yesterday after his club lost another game to the Detroit Tigers. "We're only five games behind in the loss column and we have 22 games to play. So we're still in there."

The White Sox dropped two out of three to the Tigers and remained 5½ games behind the Yankees. The Sox carried a 2-1 lead into the bottom of the ninth inning yesterday before pinch hitter Ray Boone batted in the tying run with a single. Al Kaline homered to win it in the 11th, 3-2.

"We had a nine-game winning streak going once, you know," Lopez reminded. "All we need right now is another streak—and some help from those clubs who are going to be playing the Yankees. I still think we could do it, and the players haven't quit hustling—not for one minute."

Band Leader Claims Divorce and Wants Alimony Cancelled

LOS ANGELES (P)—Ina Ray Hutton says she no longer is married to Randolph E. (Randy) Brooks and asks Superior Court to set aside its order to pay him \$35 weekly temporary alimony.

Miss Hutton, 41, leader of an all girl band, told the court yesterday that when the order was issued July 26 her attorney failed to tell the judge that exactly a month earlier she had been awarded a Las Vegas, Nev., divorce from Brooks, 41-year-old former trumpet player.

A hearing on the alimony petition was set for next Wednesday. Brooks, who described himself as unable to work because of illness, obtained the alimony order pending trial of his suit for separate maintenance, which charges cruelty. They married April 10, 1949.

Sanford Top Rookie

Warren Spahn Has the Edge On Pitcher of Year Award

By ED WILKS

The Associated Press

Wonderful Warren Spahn, now the National League's all-time southpaw shutout king, has the edge for the Pitcher of the Year award today while right hander Jack Sanford, Philadelphia's late-comer, likely will have to be satisfied with the league's rookie citation.

Spahn, the 36-year-old master of Milwaukee's first-place Braves, moved ahead of Sanford and left-hander Billy Pierce of the Chicago White Sox and gained his 41st career shutout yesterday in an 8-0 victory over the Chicago Cubs.

It was Spahn's 18th victory, matching Pierce for the major league lead, and kept the easy-running Braves 8½ games ahead of the second-place St. Louis Cardinals, who clobbered Cincinnati 14-4.

Sanford, a 28-year-old rookie, missed a big bid to keep pace in victories when he was lifted for an eighth-inning pinchhitter as the Phils took a 12-inning, 3-2 victory over Brooklyn.

In the American League, New York's "struggling" Yankees regained a 3½-game lead with a 2-0 victory at Baltimore while Detroit chilled the second-place White Sox 3-2 in 12 innings. Those were the only AL games scheduled.

The New York Giants defeated Pittsburgh 6-5 in 12 in the other NL game.

Spahn got past the pesky seventh-place Cubs with a six-hitter, striking out five and walking only one. Southpaw Dick Littlefield matched Spahn's whitewash job for six frames, then dropped his third in a five-run seventh with three of the scores unearned.

Hank Aaron then made it a romp with his 39th homer, good for three runs, in the eighth.

The NL record for career shutouts was set at 90 by Grover Cleveland Alexander.

Sanford was tagged for both Brooklyn runs and the three meager hits the Dodgers managed.

Discover the secret of performance in the new McCormick No. 37 disk harrow—a torsion-built frame of high-strength steel. See how it combines the leveling action of rigid harrows with the ground following action of flexible harrows. If one gang hits a rock or hard spot, the torsion frame lets it ride over the obstruction while the other three gangs stay in the ground. Harrow trails straight, gives you clean, level work. Available in widths from 8½ to 14 feet. See us today.

Patti Page Would Avoid Any Feudin'

By WILLIAM GLOVER

NEW YORK (AP)—Patti Page, a blonde bundle of song, doesn't want to go feudin' and fightin' with anyone.

Miss Page, debuting soon as star of a new hour-long television show, "The Big Record," is determined to avoid such customary aspects of seeking major video attention.

"I haven't even thought about ratings," she avers. "After all, you've just got to make up your mind that you never are going to be able to please just everybody."

Because a major trend of TV planning this season, along with cowboy shows, is the boom in shows spotlighting popular singers, Patti realizes that public tiffing with one or more rivals might appear to be inevitable.

"I'm not mad at anybody and I'm not going to be," says the lady of "Tennessee Waltz" and "Doggie in the Window" fame.

"I'm not even sure I'd want to get to be the top show in the ratings," she adds, "because then it seems you've just got to get in a feud."

Aside from such factors, Miss Page glows enthusiastically over "The Big Record" which takes over the CBS-TV network Wednesday evenings from 8 to 9 p. m. (E.D.T.) starting Sept. 18. The show, stressing great names of the disc-making industry in person each week, will have

Northside Union Will Hold Appreciation Service for Minister

The Northside Ministerial Union will have charge of Appreciation Services for the Rev. Harley L. Wilson, pastor of Grissom Temple C.M.E. Church, North Montauk, on Thursday night, Sept. 5.

The members of Grissom Temple will assist the Union and prepare for this service. The choir of the churches in the Union will sing at least two numbers each, and the members of the Union

Patti introducing an average of nine guests per outing.

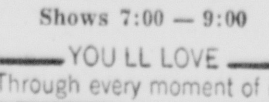

Channel chatter: NBC's planning department reports 278 stations in the U.S. are now equipped to telecast in color, a six-month increase of 21. "The Seven Lively Arts" will get underway on CBS-TV Nov. 3 with an hour-long discussion of "the changing ways of love" as scripted by humorist S. J. Perelman.

The oldest continuous musical network program in radio annals, the Salt Lake Tabernacle choir, celebrates its 25th anniversary on Columbia next Sunday. The one-spot special TV celebration of Standard Oil's 75th anniversary over NBC Oct. 13 from 9 to 10:30 p. m. (E.D.T.) will have Tyronne Power as host.

It takes a GIANT to keep America on the go

There are only 41,785 new car dealers in the U.S. to serve more than 49,000,000 car-craving families. Yet these comparatively few dealers perform a giant selling job in moving more than 6,000,000 new cars a year worth well over \$15,000,000,000!

There are only 1,761 daily newspapers in the U.S. Yet every day they roll out more than 58,000,000 copies to do a herculean job of helping to sell America's automobiles from coast to coast.

Car dealers and daily newspapers have much in common. Both are upstanding local citizens interested

vitality in local affairs. Back of almost every civic drive you'll find the local car dealer supporting it with all his weight. And right beside him, with equally ardent support, is the daily newspaper.

Car dealers, like others, have learned that the daily newspaper puts plenty of weight behind an advertiser's sales message, too. That's why newspapers, each year, carry the biggest share of automotive advertising. Use this giant to put the weight behind your advertising.

All business is local...and so are all newspapers.

They're Not Used

United States postal laws forbid the placing of pictures of living persons on fiscal issues of the government, including postage stamps and, consequently, the picture of no President has been placed on any U. S. stamp while he was living.

Motion Does It

Bullfighters dress in bright colors and wave pieces of brightly-colored cloth in the arena not only to infuriate the animals, but also to attract the spectators. It is the motion of the cloth rather than the particular color that excites and maddens the bull.

Naturally Tailless

The schipperke poodle, or lap dog, is the only breed that is naturally tailless. No trace of a tail occurs in the typical schipperke when born.

Patented Gun

First machine gun for rapid firing was invented by Richard Gatling, who obtained a U. S. patent on Nov. 4, 1862. The first gun was made in Indianapolis and fired 250 shots a minute.

Today's Doctor Aided By Many New Tests, Methods

By EDWIN P. JORDAN, M.D.

During the past 50 years a great many new methods have been developed for examining the human body, its organs and functions.

The simple methods which have long been used involve the doctor's own senses. They include what the doctor can see, feel, tell by pounding (most commonly over the chest) and hear through the stethoscope.

To these time-tested methods of physical examination have been added many special tests. One of the most important of these is the X-ray.

Practically no one tries to set a bone unless an X-ray has been made. The X-ray helps to make a diagnosis of tuberculosis. It is used in the study of ulcers and other disorders of the intestinal tract.

The physical examination today is not complete unless the blood pressure has been taken and samples of blood and urine obtained.

At least three tests of the blood are always applied: counting the white and red cells and testing the iron in the blood for anemia.

Minimum tests of the urine include examination for pus, sugar (diabetes) and abnormal protein (usually Bright's disease). In addition, both blood and urine often are subjected to many special tests.

The modern physician has available a great many ingenious instruments and special tests. These include the electrocardiogram for the study of the heart, and basal metabolism for study of the thyroid.

The fact that there are so many possible tests has introduced a new and complicated problem. If one wants a complete routine yearly examination, how should one go about it, as H. L. Inquiries?

It would be expensive and involve the special skills of a large number of physicians to make every known test on the human body. What to include, therefore, is a problem about which there is

still considerable dispute in medical circles.

Probably the most practical solution is to go regularly to a skilled and experienced general physician or specialist in internal medicine. Rely on his judgment as to what should be included in the way of special tests.

In the absence of symptoms pointing to the need for some special examinations, he will probably give some tests each year. Others will be given only at intervals of two or three years.

Soviet, NATO Naval Forces Plan Games

LONDON (AP)—Naval forces of both the Soviet Union and NATO are scheduled to carry out maneuvers in arctic waters off Europe this month, but they apparently will be operating about 1,000 miles apart.

Moscow radio announced the Soviet war games Tuesday in a warning to foreign ships and planes to steer clear of "hazardous" operations in the area. A Defense Ministry statement said the Soviets would take no responsibility for damage incurred in the danger zone.

The Russian operations will be held from Sept. 10 to Oct. 15 in an area directly north of the Ural Mountains, centering on the Soviet Novaya Zemlya (New Land) Islands. The islands form an archipelago of 35,000 square miles between the Barents and Kara seas. The closest part of Scandinavia is arctic Norway, about 300 miles to the southwest.

The broadcast said air and naval maneuvers will be held with different types of modern weapons and warned all ships and planes it will be dangerous to enter the waters or the air space of the area.

North Atlantic Alliance officials have not pinned down the NATO maneuver area, except to say it will be north of the North Sea. The NATO exercises will be held Sept. 19-28.

About 85 American ships are sailing from Norfolk, Va., today for the maneuvers. Some 300 warships of six NATO nations will take part.

NATO also has scheduled smaller exercises in the Atlantic during the next six weeks and operations in the Mediterranean Sept. 24-28.

Another Moscow announcement said two more Soviet warships are on their way from the Baltic to

Suggested List Prices For Edsel Announced

DETROIT (AP)—Suggested list prices for the Ford Motor Co.'s new Edsel line will range from \$2,300 for the range two-door sedan to \$3,849 to the Citation convertible exclusive of federal and other taxes.

The 18-model line will be introduced publicly in 1,200 dealer showrooms today.

In announcing the suggested list prices, Richard E. Krafft, company vice president and general manager of the Edsel division said they are expected to be fully competitive with 1958 models of other makes in the medium price field.

Standard equipment on all Edsel models include dual head lights, automatic-adjusting brakes, and, in the three top series, contour seats with the one-third, two-third seating arrangement in front.

the Adriatic. The Communist party newspaper Pravda said the cruiser Zhdanov and the destroyer Svyobodny sailed Sunday on a good will visit to Yugoslavia. They are following the same route through the Baltic, North Sea, Atlantic and Mediterranean taken by a Soviet cruiser and destroyer which reached Albania Friday.

There has been some speculation that the movement of the Soviet vessels in the Mediterranean may be designed to impress the countries of the Middle East.

Marine Sergeant Gets Lodging in City Jail

RENO, Nev. (AP)—Even though sleeping accommodations were almost impossible to find here over the Labor Day weekend, Marine Sgt. Donald Moffitt could have done better than he did.

Police found him sleeping in one of their patrol cars temporarily parked downtown.

They provided him with lodging in the city jail.

When the sergeant woke up they put him on a bus headed for his station, the Marine cold weather training camp at Pickel Meadows, near Bridgeport, Calif.
